

4. 10 waters that were identified as impaired (not meeting water quality standards or designated uses) in the Commonwealth's 1998 Section 305(b) report but were not included by Virginia on the Section 303(d) list.

5. 6 waters that already are listed for one or more pollutants but, based on information from the Commonwealth's 1998 Section 306(b) report, should be listed for an additional pollutant.

In addition to identifying the five groups of waters above, EPA recommends that the Commonwealth modify the priority rankings, from medium to high, for four waters identified by the U.S. Fish and Wildlife Service as adversely impacting endangered species.
